# SAFETY DATA SHEET

## SECTION 1 : IDENTIFICATION

<table>
<thead>
<tr>
<th>Product identifier used on the label:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Product Name:</strong></td>
<td>FLEXANE FL-10 PRIMER</td>
</tr>
<tr>
<td><strong>Stock No.:</strong></td>
<td>15980</td>
</tr>
</tbody>
</table>

**Other means of identification:**

**Recommended use of the chemical and restrictions on use:**

**Chemical manufacturer address and telephone number:**

<table>
<thead>
<tr>
<th>Manufacturer Name:</th>
<th>ITW Performance Polymers</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Address:</strong></td>
<td>30 Endicott Street</td>
</tr>
<tr>
<td><strong>Danvers, MA 01923</strong></td>
<td></td>
</tr>
<tr>
<td><strong>General Phone Number:</strong></td>
<td>(978) 777-1100</td>
</tr>
</tbody>
</table>

**Emergency phone number:**

| **Emergency Phone Number:**          | (800) 424-9300           |
| **CHEMTREC:**                        | For emergencies in the US, call CHEMTREC: 800-424-9300 |

## SECTION 2 : HAZARD(S) IDENTIFICATION

**Classification of the chemical in accordance with CFR 1910.1200(d)(f):**

**GHS Pictograms:**

| **Signal Word:**                     | DANGER.                  |
| **GHS Class:**                       | Flammable Liquid. Category 2. |
| **Aspiration Hazard. category 1.**   |                          |
| **Specific Target Organ Toxicity -STOT Repeated exposure RE. Category 2** | (Inhalation, brain & central nervous system). |
| **Reproductive toxicity. Category 2.** |                         |
| **Eye Irritation. Category 2.**      |                          |
| **Skin Irritation. Category 2.**     |                          |

**Hazard Statements:**

H225 - Highly flammable liquid and vapor.
H304 - May be fatal if swallowed and enters airways.
H373 - May cause damage to organs through prolonged or repeated exposure.
H361 - Suspected of damaging fertility or the unborn child.
H319 - Causes serious eye irritation.
H315 - Causes skin irritation.

**Precautionary Statements:**

P201 - Obtain special instructions before use.
P202 - Do not handle until all safety precautions have been read and understood.
P210 - Keep away from heat/sparks/open flames/hot surfaces. — No smoking.
P233 - Keep container tightly closed.
P240 - Ground/Bond container and receiving equipment.
P243 - Take precautionary measures against static discharge.
P260 - Do not breathe dust/fume/gas/mist/vapours/spray.
P264 - Wash hands thoroughly after handling.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.
P301+P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
P303+P361+P337 - IF ON SKIN: Wash with plenty of water.
P303+P361+P353 - IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing, Rinse skin with water/shower.
P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P338 - IF IN EYES: Remove contact lenses.
P313 - IF exposed or concerned: Get medical advice/attention.
P314 - Get medical advice/attention if you feel unwell.
P321 - Specific treatment (see ... on this label).
P331 - Do not induce vomiting.
P332+P313 - If skin irritation occurs: Get medical advice/attention.
P337+P313 - If eye irritation persists: Get medical advice/attention.
P364 - Take off contaminated clothing and wash it before reuse.
P370+P378 - In case of fire: Use dry chemical, carbon dioxide to extinguish small fires. Use water for large fires.
P403+P235 - Store in a well-ventilated place. Keep cool.
P405 - Store locked up.
P501 - Dispose of contents/container in accordance with Local, State, Federal and Provincial regulations.

**Hazards not otherwise classified that have been identified during the classification process:**

FLEXANE FL-10 PRIMER

Revision:: 07/29/2015

Stock No. 15980
Route of Exposure: Eyes. Skin. Inhalation. Ingestion.

Potential Health Effects:

Eye: Can cause moderate irritation, burning sensation, tearing, redness, and swelling. Overexposure may cause lacrimation, conjunctivitis, corneal damage and permanent injury.

Skin: Can cause skin irritation; itching, redness, rashes, hives, burning, and swelling.

Inhalation: Respiratory tract irritant. High concentration may cause dizziness, headache, and anesthetic effects.

Ingestion: Causes irritation, a burning sensation of the mouth, throat and gastrointestinal tract and abdominal pain.

Chronic Health Effects: Prolonged skin contact may lead to burning associated with severe reddening, swelling, and possible tissue destruction.

Signs/Symptoms: Overexposure can cause headaches, dizziness, nausea, and vomiting.

Aggravation of Pre-Existing Conditions: Individuals with pre-existing skin disorders, asthma, allergies or known sensitization may be more susceptible to the effects of this product.

SECTION 3 : COMPOSITION/INFORMATION ON INGREDIENTS

Mixtures:

</table>

SECTION 4 : FIRST AID MEASURES

Description of necessary measures:

Eye Contact: Immediately flush eyes with plenty of water for at least 15 to 20 minutes. Ensure adequate flushing of the eyes by separating the eyelids with fingers. Get immediate medical attention.

Skin Contact: Immediately wash skin with plenty of soap and water for 15 to 20 minutes, while removing contaminated clothing and shoes. Get medical attention if irritation develops or persists.

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Seek immediate medical attention.

Ingestion: If swallowed, do NOT induce vomiting. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person.

Most important symptoms/effects, acute and delayed:

Other First Aid: Due to possible aspiration into the lungs, DO NOT induce vomiting if ingested. Provide a glass of water to dilute the material in the stomach. If vomiting occurs naturally, have the person lean forward to reduce the risk of aspiration.

SECTION 5 : FIRE FIGHTING MEASURES

Suitable and unsuitable extinguishing media:

Suitable Extinguishing Media: Use carbon dioxide (CO2) or dry chemical when fighting fires involving this material.

Special protective equipment and precautions for fire-fighters:

Protective Equipment: As in any fire, wear Self-Contained Breathing Apparatus (SCBA), MSHA/NIOSH (approved or equivalent) and full protective gear.

Fire Fighting Instructions: Evacuate area of unprotected personnel. Use cold water spray to cool fire exposed containers to minimize risk of rupture. Do not enter confined fire space without full protective gear. If possible, contain fire run-off water.

SECTION 6 : ACCIDENTAL RELEASE MEASURES
Personal precautions, protective equipment and emergency procedures:

Personal Precautions: Evacuate area and keep unnecessary and unprotected personnel from entering the spill area.

Environmental precautions:

Environmental Precautions: Avoid runoff into storm sewers, ditches, and waterways.

Methods and materials for containment and cleaning up:

Spill Cleanup Measures: Absorb spill with inert material (e.g., dry sand or earth), then place in a chemical waste container. Provide ventilation. Collect spill with a non-sparking tool. Place into a suitable container for disposal. Clean up spills immediately observing precautions in the protective equipment section. After removal, flush spill area with soap and water to remove trace residue. Flammable, eliminate ignition sources. Vapors can form an ignitable mixture with air. Vapors can flow along surfaces to distant ignition sources and flash back. Ventilate area. Use proper personal protective equipment as listed in Section 8.

Reference to other sections:

Other Precautions: Pump or shovel to storage/salvage vessels.

SECTION 7 : HANDLING and STORAGE

Precautions for safe handling:

Handling: Use with adequate ventilation. Avoid breathing vapor, aerosol or mist. Material will accumulate static changes which may cause an electrical spark (ignition source). Use proper grounding procedures. Do not reuse containers without proper cleaning or reconditioning.

Hygiene Practices: Wash thoroughly after handling.

Special Handling Procedures: Provide appropriate ventilation/respiratory protection against decomposition products (see Section 10) during welding/flame cutting operations and to protect against dust during sanding/grinding of cured product. Hazardous liquid or vapor residue may remain in emptied container. Do not reuse, heat, burn, pressurize, cut, weld, braze, solder, drill, grind, expose to sparks, flame, or ignition sources of empty containers without proper commercial cleaning or reconditioning.

Conditions for safe storage, including any incompatibilities:

Storage: Store in a cool, dry, well ventilated area away from sources of heat, combustible materials, direct sunlight, and incompatible substances. Keep container tightly closed when not in use.

SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION

EXPOSURE GUIDELINES:

Ethanol:
- Guideline ACGIH: TLV-STEL: 1000 ppm
- Guideline OSHA: PEL-TWA: 1000 ppm

Methyl Isobutyl Ketone:
- Guideline ACGIH: TLV-STEL: 75 ppm
- TLV-TWA: 30 ppm
- TLV-TWA: 20 ppm
- TLV-STEL: 75 ppm
- Guideline OSHA: PEL-TWA: 100 ppm

Toluene:
- Guideline ACGIH: TLV-TWA: 20 ppm
- Guideline OSHA: PEL-TWA: 200 ppm
- PEL-Ceiling/Peak: 300 ppm
- PEL-Ceiling/Peak: 500 ppm

Isopropanol:
- Guideline ACGIH: TLV-STEL: 400 ppm
- TLV-TWA: 200 ppm
- Guideline OSHA: PEL-TWA: 400 ppm

Appropriate engineering controls:

Engineering Controls: Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Good general ventilation should be sufficient to control airborne levels. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.

Individual protection measures:

Eye/Face Protection: Wear appropriate protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye and face protection regulation, or the European standard EN 166.

Skin Protection Description: Wear appropriate protective gloves and other protective apparel to prevent skin contact. Consult manufacturer's data for permeability data.

Respiratory Protection: A NIOSH approved air-purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection.

Other Protective: Facilities storing or utilizing this material should be equipped with an eyewash and a deluge shower safety station.

Notes: Only established PEL and TLV values for the ingredients are listed.
PHYSICAL AND CHEMICAL PROPERTIES:

Physical State Appearance: Liquid.
Color: Blue
Odor: Solvent.
Boiling Point: 195°F (90.5°C)
Melting Point: Not determined.
Specific Gravity: 0.87
Solubility: APPROXIMATELY 35%
Vapor Density: >1 (air = 1)
Vapor Pressure: 13 mmHg @68°F
Percent Volatile: 80
Evaporation Rate: >1 (butyl acetate = 1)
PH: Approximately 7 @ 5 Percent Solution
Molecular Formula: Mixture
Molecular Weight: Mixture
Flash Point: 55°F (12.7°C)
Flash Point Method: Tag closed cup. (TCC)
Lower Flammable/Explosive Limit: 1.3%
Upper Flammable/Explosive Limit: 8.0%
Auto Ignition Temperature: Not determined.
VOC Content: 640 g/L
9.2. Other Information:
Percent Solids by Weight 20

SECTION 10 : STABILITY and REACTIVITY

Chemical Stability: Stable under normal temperatures and pressures.
Possibility of hazardous reactions: Not reported.
Conditions To Avoid: Extreme heat, sparks, and open flame. Incompatible materials, oxidizers and oxidizing conditions. Heating resin above 300 F in the presence of air may cause slow oxidative decomposition.

SECTION 11 : TOXICOLOGICAL INFORMATION

TOXICOLOGICAL INFORMATION:

Ethanol:
Eye: Administration into the eye - Rabbit Standard Draize test: 500 mg [Severe]
Administration into the eye - Rabbit Standard Draize test: 500 mg/24H [Mild]
Administration into the eye - Rabbit Rinsed with water: 100 mg/4S [Moderate]
Inhalation: Inhalation - Rat LC50 - Lethal concentration, 50 percent kill: 20000 ppm/10H [Details of toxic effects not reported other than lethal dose value]
Inhalation - Rat LC50 - Lethal concentration, 50 percent kill: 5900 mg/m3/6H [Details of toxic effects not reported other than lethal dose value]
Inhalation - Rat LC50 - Lethal concentration, 50 percent kill: 124700 mg/m3/4H [Details of toxic effects not reported other than lethal dose value] (RTECS)
Ingestion: Oral - Rat LD50 - Lethal dose, 50 percent kill: 7060 mg/kg [Lungs, Thorax, or Respiration - Other changes]
Oral - Rat LD50 - Lethal dose, 50 percent kill: 7 gm/kg [Details of toxic effects not reported other than lethal dose value]
Oral - Rat LD50 - Lethal dose, 50 percent kill: 15010 mg/kg [Behavioral - Somnolence (general depressed activity) Lungs, Thorax, or Respiration - Respiratory depression Gastrointestinal - Gastritis] (RTECS)

Methyl Isobutyl Ketone:
Eye: Administration into the eye - Rabbit Standard Draize test: 40 mg [Severe]
Administration into the eye - Rabbit Standard Draize test: 100 uL/24H [Moderate] (RTECS)
Inhalation:
Inhalation - Rat LC50 - Lethal concentration, 50 percent kill: 100 gm/m3 [Details of toxic effects not reported other than lethal dose value] (RTECS)

Ingestion:
Oral - Rat LD50 - Lethal dose, 50 percent kill: 2080 mg/kg [Details of toxic effects not reported other than lethal dose value]
Oral - Rat LD50 - Lethal dose, 50 percent kill: 4600 mg/kg [Brain and Coverings - Increased intracranial pressure Liver - Fatty liver degeneration Blood - Changes in spleen] (RTECS)

**Toluene**:

Eye:
Administration into the eye - Rabbit Standard Draize test: 870 ug [Mild]
Administration into the eye - Rabbit Standard Draize test: 2 mg/24H [Severe]
Administration into the eye - Rabbit Rinseed with water: 100 mg/30S [Mild] (RTECS)

Skin:
Administration onto the skin - Rabbit LD50 - Lethal dose, 50 percent kill: 14100 uL/kg [Details of toxic effects not reported other than lethal dose value] (RTECS)

Inhalation:
Inhalation - Rat LC50 - Lethal concentration, 50 percent kill: 49 gm/m3/4H [Details of toxic effects not reported other than lethal dose value] (RTECS)

Ingestion:
Oral - Rat LD50 - Lethal dose, 50 percent kill: 636 mg/kg [Details of toxic effects not reported other than lethal dose value] (RTECS)

**Isopropanol**:

Eye:
Administration into the eye - Rabbit Standard Draize test: 100 mg [Severe]
Administration into the eye - Rabbit Standard Draize test: 10 mg [Moderate]
Administration into the eye - Rabbit Standard Draize test: 100 mg/24H [Moderate] (RTECS)

Skin:
Administration onto the skin - Rabbit LD50 - Lethal dose, 50 percent kill: 12800 mg/kg [Details of toxic effects not reported other than lethal dose value] (RTECS)

Inhalation:
Inhalation - Rat LC50 - Lethal concentration, 50 percent kill: 16000 ppm/4H [Details of toxic effects not reported other than lethal dose value] (RTECS)

Ingestion:
Oral - Rat LD50 - Lethal dose, 50 percent kill: 5045 mg/kg [Behavioral - Altered sleep time (including change in righting reflex) Behavioral - Somnolence (general depressed activity)]
Oral - Rat LD50 - Lethal dose, 50 percent kill: >5 gm/kg [Details of toxic effects not reported other than lethal dose value] (RTECS)

**Phenolic Resin**:

Skin:
Administration onto the skin - Rat LD50 - Lethal dose, 50 percent kill: >2 gm/kg [Details of toxic effects not reported other than lethal dose value] (RTECS)

Ingestion:
Oral - Rat LD50 - Lethal dose, 50 percent kill: >5 gm/kg [Details of toxic effects not reported other than lethal dose value] (RTECS)

---

**SECTION 12 : ECOLOGICAL INFORMATION**

**Ecotoxicity:**
No ecotoxicity data was found for the product.

**Environmental Fate:**
No environmental information found for this product.

---

**SECTION 13 : DISPOSAL CONSIDERATIONS**

**Description of waste:**
Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and/or state and local guidelines.

**RCRA Number:**
D001

**Important Disposal Information:**
DANGER! Rags, steel wool and waste soaked with this product may spontaneously catch fire if improperly discarded or stored. To avoid a spontaneous combustion fire, immediately after use, place rags, steel wool or waste in a sealed, water-filled, metal container.

---

**SECTION 14 : TRANSPORT INFORMATION**

**DOT Shipping Name:**
Refer to Bill of Lading

**DOT UN Number:**
Refer to Bill of Lading

---

**SECTION 15 : REGULATORY INFORMATION**

Safety, health and environmental regulations specific for the product:

**Ethanol:**
TSCA Inventory Status: Listed
Canada DSL: Listed

**Methyl Isobutyl Ketone:**
