PRODUCT DESCRIPTION
Permatex® Thread Sealant with PTFE is a smooth white paste with a slight alcohol odor. It is a fast acting paste/lubricant designed to seal pipes, fittings and threaded connections against leakage and loosening. Seals pressure to working rating of pipe in air, oil, gas and hydraulic systems. Lubricates threads for quick, easy assembly and disassembly. Prevents galling and corrosion. Will not tear or shred like tapes. Remains pliable through a wide temperature range and outperforms other pipe dopes.

PRODUCT BENEFITS
• Easy to use
• Non drip formula
• Effective up to 5000 psi
• Good heat resistance
• Temperature range –65°F to +300°F (-54°C to +204°C)

TYPICAL APPLICATIONS
• Air conditioning fittings
• Temperature sending fittings
• Hydraulic fittings

DIRECTIONS FOR USE
1. Threads must be free of dirt and corrosion.
2. Apply to male threads.
3. Force sealant into the thread grooves with brush or spatula.
4. Assemble parts.
5. Adjustments can be made up to 24 hours after application without damage to seal.
6. Remove excess wet sealant by wiping with a dry cloth. Dried sealant can be peeled off.

STORAGE
Products shall be ideally stored in a cool, dry location in unopened containers at a temperature between 8° and 28°C (46° and 82°F) unless otherwise labeled. Optimal storage is at the lower half of this temperature range. To prevent contamination of unused product, do not return any material to its original container.
