

# SAFETY DATA SHEET

## 1. Identification

**Product identifier** Insulcast 987 CM - Part B

**Other means of identification**  
**SKU#** IE197H

**Recommended use** Not available.

**Recommended restrictions** None known.

**Manufacturer/Importer/Supplier/Distributor information**

**Manufacturer**

**Company name** ITW Performance Polymers

**Address** 130 Commerce Drive  
Montgomeryville, PA 18936  
United States

**Telephone** Customer Service 215-855-8450

**Website** www.itwperformancepolymers.com

**E-mail** Not available.

**Contact person** EHS Department

**Emergency phone number** CHEMTREC 800-424-9300  
International 703-527-3887

## 2. Hazard(s) identification

**Physical hazards** Not classified.

**Health hazards** Acute toxicity, inhalation Category 4  
Skin corrosion/irritation Category 2  
Serious eye damage/eye irritation Category 2

**Environmental hazards** Not classified.

**OSHA defined hazards** Not classified.

### Label elements

**Signal word** Warning

**Hazard statement** Causes skin irritation. Causes serious eye irritation. Harmful if inhaled.

**Precautionary statement**

**Prevention** Avoid breathing vapors. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear eye protection/face protection. Wear protective gloves.

**Response** If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

**Storage** Store away from incompatible materials.

**Disposal** Dispose of waste and residues in accordance with local authority requirements.

**Hazard(s) not otherwise classified (HNOC)** None known.

**Supplemental information** 63.46% of the mixture consists of component(s) of unknown acute oral toxicity. 63.46% of the mixture consists of component(s) of unknown acute dermal toxicity. 98.99% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 98.99% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

### 3. Composition/information on ingredients

#### Mixtures

| Chemical name                            | Common name and synonyms | CAS number  | %       |
|--|--------------------------|-------------|---------|
| Castor Oil Homopolymer                   |                          | Proprietary | 30 - 60 |
| Talc                                     |                          | 14807-96-6  | 30 - 60 |
| Dihydro-3-(tetrapropenyl)furan-2,5-dione |                          | 26544-38-7  | 10 - 30 |
| Other components below reportable levels |                          |             | 5 - 10  |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

### 4. First-aid measures

|   |   |
|---|---|
| <b>Inhalation</b>   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Call a poison center or doctor/physician if you feel unwell.       |
| <b>Skin contact</b>   | Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.                                 |
| <b>Eye contact</b>  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists. |
| <b>Ingestion</b>  | Rinse mouth. Get medical attention if symptoms occur.   |
| <b>Most important symptoms/effects, acute and delayed</b>                     | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing. Skin irritation. May cause redness and pain.  |
| <b>Indication of immediate medical attention and special treatment needed</b> | Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.  |
| <b>General information</b>  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.  |

### 5. Fire-fighting measures

|  |   |
|--|---|
| <b>Suitable extinguishing media</b>                                  | Alcohol resistant foam. Powder. Carbon dioxide (CO2).   |
| <b>Unsuitable extinguishing media</b>                                | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| <b>Specific hazards arising from the chemical</b>                    | During fire, gases hazardous to health may be formed.   |
| <b>Special protective equipment and precautions for firefighters</b> | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| <b>Fire fighting equipment/instructions</b>                          | Move containers from fire area if you can do so without risk.                                 |
| <b>Specific methods</b>  | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| <b>General fire hazards</b>  | No unusual fire or explosion hazards noted.   |

### 6. Accidental release measures

|  |  |
|--|--|
| <b>Personal precautions, protective equipment and emergency procedures</b> | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid inhalation of vapors and spray mists. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.                         |
| <b>Methods and materials for containment and cleaning up</b>               | Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.<br><br>Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.<br><br>Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. |
| <b>Environmental precautions</b>   | Avoid discharge into drains, water courses or onto the ground.   |

### 7. Handling and storage

|                                      |   |
|--------------------------------------|---|
| <b>Precautions for safe handling</b> | Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Use only outdoors or in a well-ventilated area. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. |
|--------------------------------------|---|

**Conditions for safe storage, including any incompatibilities**

Store in tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

## 8. Exposure controls/personal protection

### Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

#### US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

| Components             | Type | Value                         |
|------------------------|------|-------------------------------|
| Castor Oil Homopolymer | PEL  | 20 mg/m <sup>3</sup><br>5 ppm |

#### US. OSHA Table Z-3 (29 CFR 1910.1000)

| Components            | Type | Value  | Form                           |
|-----------------------|------|--|--------------------------------|
| Talc (CAS 14807-96-6) | TWA  | 0.1 mg/m <sup>3</sup><br>20 mppcf<br>2.4 mppcf | Respirable.<br><br>Respirable. |

#### US. ACGIH Threshold Limit Values

| Components             | Type        | Value               | Form                 |
|------------------------|-------------|---------------------|----------------------|
| Castor Oil Homopolymer | STEL<br>TWA | 3 ppm<br>1 ppm      |                      |
| Talc (CAS 14807-96-6)  | TWA         | 2 mg/m <sup>3</sup> | Respirable fraction. |

#### US. NIOSH: Pocket Guide to Chemical Hazards

| Components             | Type    | Value                         | Form        |
|------------------------|---------|-------------------------------|-------------|
| Castor Oil Homopolymer | Ceiling | 20 mg/m <sup>3</sup><br>5 ppm |             |
| Talc (CAS 14807-96-6)  | TWA     | 2 mg/m <sup>3</sup>           | Respirable. |

### Biological limit values

No biological exposure limits noted for the ingredient(s).

### Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.

### Individual protection measures, such as personal protective equipment

**Eye/face protection** Chemical respirator with organic vapor cartridge and full facepiece.

#### Skin protection

**Hand protection** Wear appropriate chemical resistant gloves.

**Other** Wear appropriate chemical resistant clothing.

**Respiratory protection** Chemical respirator with organic vapor cartridge and full facepiece.

**Thermal hazards** Wear appropriate thermal protective clothing, when necessary.

### General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9. Physical and chemical properties

|                                     |                |
|-------------------------------------|----------------|
| <b>Appearance</b>                   | Liquid.        |
| <b>Physical state</b>               | Liquid.        |
| <b>Form</b>                         | Liquid.        |
| <b>Color</b>                        | Amber Amber    |
| <b>Odor</b>                         | Slight.        |
| <b>Odor threshold</b>               | Not available. |
| <b>pH</b>                           | Not available. |
| <b>Melting point/freezing point</b> | Not available. |

|   |                            |
|---|----------------------------|
| <b>Initial boiling point and boiling range</b>      | 363 °F (183.89 °C)         |
| <b>Flash point</b>                                  | 363.0 °F (183.9 °C)        |
| <b>Evaporation rate</b>                             | Not available.             |
| <b>Flammability (solid, gas)</b>                    | Not applicable.            |
| <b>Upper/lower flammability or explosive limits</b> |                            |
| <b>Explosive limit - lower (%)</b>                  | Not available.             |
| <b>Explosive limit - upper (%)</b>                  | Not available.             |
| <b>Vapor pressure</b>                               | 1 mm Hg                    |
| <b>Vapor density</b>                                | Not available.             |
| <b>Relative density</b>                             | Not available.             |
| <b>Solubility(ies)</b>                              |                            |
| <b>Solubility (water)</b>                           | Not available.             |
| <b>Partition coefficient (n-octanol/water)</b>      | Not available.             |
| <b>Auto-ignition temperature</b>                    | Not available.             |
| <b>Decomposition temperature</b>                    | Not available.             |
| <b>Viscosity</b>                                    | Not available.             |
| <b>Other information</b>                            |                            |
| <b>Density</b>                                      | 11.28 lb/gal               |
| <b>Explosive properties</b>                         | Not explosive.             |
| <b>Flammability class</b>                           | Combustible IIIB estimated |
| <b>Oxidizing properties</b>                         | Not oxidizing.             |
| <b>Specific gravity</b>                             | 1.35                       |
| <b>VOC</b>  | 0<br>EPA<br>CARB           |

## 10. Stability and reactivity

|   |   |
|---|---|
| <b>Reactivity</b>                         | The product is stable and non-reactive under normal conditions of use, storage and transport.                           |
| <b>Chemical stability</b>                 | Material is stable under normal conditions.   |
| <b>Possibility of hazardous reactions</b> | No dangerous reaction known under conditions of normal use.   |
| <b>Conditions to avoid</b>                | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with incompatible materials. |
| <b>Incompatible materials</b>             | Strong oxidizing agents. Alcohols. Amines.  |
| <b>Hazardous decomposition products</b>   | No hazardous decomposition products are known.  |

## 11. Toxicological information

### Information on likely routes of exposure

|                     |  |
|---------------------|--|
| <b>Inhalation</b>   | Harmful if inhaled.                    |
| <b>Skin contact</b> | Causes skin irritation.                |
| <b>Eye contact</b>  | Causes serious eye irritation.         |
| <b>Ingestion</b>    | Expected to be a low ingestion hazard. |

**Symptoms related to the physical, chemical and toxicological characteristics** Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing. Skin irritation. May cause redness and pain.

### Information on toxicological effects

**Acute toxicity** Harmful if inhaled.

| Components  | Species  | Test Results       |
|---|--|--------------------|
| Castor Oil Homopolymer  |  |                    |
| <b><u>Acute</u></b>   |  |                    |
| <b>Dermal</b>   |  |                    |
| LD50  | Rabbit   | 4000 mg/kg         |
| <b>Inhalation</b>   |  |                    |
| LC50  | Rat  | 1.68 mg/l, 6 Hours |
| <b>Oral</b>   |  |                    |
| LD50  | Rat  | 1780 mg/kg         |
| <b>Skin corrosion/irritation</b>                                      | Causes skin irritation.  |                    |
| <b>Serious eye damage/eye irritation</b>                              | Causes serious eye irritation.   |                    |
| <b>Respiratory or skin sensitization</b>                              |  |                    |
| <b>Respiratory sensitization</b>                                      | Not a respiratory sensitizer.  |                    |
| <b>Skin sensitization</b>   | This product is not expected to cause skin sensitization.  |                    |
| <b>Germ cell mutagenicity</b>   | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.   |                    |
| <b>Carcinogenicity</b>  | Not classifiable as to carcinogenicity to humans.  |                    |
| <b>IARC Monographs. Overall Evaluation of Carcinogenicity</b>         |  |                    |
| Talc (CAS 14807-96-6)   | 2B Possibly carcinogenic to humans.<br>3 Not classifiable as to carcinogenicity to humans.   |                    |
| <b>OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)</b> |  |                    |
|   | Not regulated.   |                    |
| <b>US. National Toxicology Program (NTP) Report on Carcinogens</b>    |  |                    |
|   | Not listed.  |                    |
| <b>Reproductive toxicity</b>  | This product is not expected to cause reproductive or developmental effects.   |                    |
| <b>Specific target organ toxicity - single exposure</b>               | Not classified.  |                    |
| <b>Specific target organ toxicity - repeated exposure</b>             | Not classified.  |                    |
| <b>Aspiration hazard</b>  | Not an aspiration hazard.  |                    |
| <b>Chronic effects</b>  | Prolonged inhalation may be harmful.   |                    |
| <b>12. Ecological information</b>                                     |  |                    |
| <b>Ecotoxicity</b>  | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.   |                    |
| <b>Persistence and degradability</b>                                  | No data is available on the degradability of any ingredients in the mixture.   |                    |
| <b>Bioaccumulative potential</b>                                      |  |                    |
| <b>Mobility in soil</b>   | No data available.   |                    |
| <b>Other adverse effects</b>  | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.  |                    |
| <b>13. Disposal considerations</b>                                    |  |                    |
| <b>Disposal instructions</b>  | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Incinerate the material under controlled conditions in an approved incinerator. Dispose of contents/container in accordance with local/regional/national/international regulations. |                    |
| <b>Local disposal regulations</b>                                     | Dispose in accordance with all applicable regulations.   |                    |
| <b>Hazardous waste code</b>   | D002: Waste Corrosive material [pH <=2 or >=12.5, or corrosive to steel]<br>The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |                    |
| <b>Waste from residues / unused products</b>                          | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).   |                    |
| <b>Contaminated packaging</b>   | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.   |                    |

## 14. Transport information

### DOT

Not regulated as dangerous goods.

### IATA

Not regulated as dangerous goods.

### IMDG

Not regulated as dangerous goods.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** Not established.

## 15. Regulatory information

**US federal regulations** This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

### CERCLA Hazardous Substance List (40 CFR 302.4)

Castor Oil Homopolymer (CAS Proprietary) Listed.

### SARA 304 Emergency release notification

Not regulated.

### OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not regulated.

### Superfund Amendments and Reauthorization Act of 1986 (SARA)

#### SARA 302 Extremely hazardous substance

Not listed.

#### Classified hazard categories

Acute toxicity (any route of exposure)  
Skin corrosion or irritation  
Serious eye damage or eye irritation

#### SARA 313 (TRI reporting)

Not regulated.

### Other federal regulations

#### Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

#### Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

#### Safe Drinking Water Act (SDWA)

Not regulated.

#### Drug Enforcement Administration (DEA). List 2, Essential Chemicals (21 CFR 1310.02(b) and 1310.04(f)(2) and Chemical Code Number

Castor Oil Homopolymer (CAS Proprietary) 8519

#### Drug Enforcement Administration (DEA). List 1 & 2 Exempt Chemical Mixtures (21 CFR 1310.12(c))

Castor Oil Homopolymer (CAS Proprietary) 20 %WV

#### DEA Exempt Chemical Mixtures Code Number

Castor Oil Homopolymer (CAS Proprietary) 8519

### US state regulations

#### California Proposition 65

**WARNING:** This product can expose you to Ethyl Acrylate, which is known to the State of California to cause cancer. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

#### California Proposition 65 - CRT: Listed date/Carcinogenic substance

Ethyl Acrylate (CAS 140-88-5) Listed: July 1, 1989

#### US. California. Candidate Chemicals List. Safer Consumer Products Regulations (Cal. Code Regs, tit. 22, 69502.3, subd. (a))

Talc (CAS 14807-96-6)

## International Inventories

| Country(s) or region        | Inventory name   | On inventory (yes/no)* |
|-----------------------------|--|------------------------|
| Australia                   | Australian Inventory of Chemical Substances (AICS)                     | Yes                    |
| Canada                      | Domestic Substances List (DSL)   | Yes                    |
| Canada                      | Non-Domestic Substances List (NDSL)                                    | No                     |
| China                       | Inventory of Existing Chemical Substances in China (IECSC)             | Yes                    |
| Europe                      | European Inventory of Existing Commercial Chemical Substances (EINECS) | No                     |
| Europe                      | European List of Notified Chemical Substances (ELINCS)                 | No                     |
| Japan                       | Inventory of Existing and New Chemical Substances (ENCS)               | Yes                    |
| Korea                       | Existing Chemicals List (ECL)  | Yes                    |
| New Zealand                 | New Zealand Inventory  | Yes                    |
| Philippines                 | Philippine Inventory of Chemicals and Chemical Substances (PICCS)      | Yes                    |
| Taiwan                      | Taiwan Chemical Substance Inventory (TCSI)                             | Yes                    |
| United States & Puerto Rico | Toxic Substances Control Act (TSCA) Inventory                          | Yes                    |

\*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)

A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

## 16. Other information, including date of preparation or last revision

**Issue date** 07-01-2018

**Version #** 01

**HMIS® ratings**  
Health: 2  
Flammability: 1  
Physical hazard: 1

**NFPA ratings**  
Health: 2  
Flammability: 1  
Instability: 1

**Disclaimer**  
ITW Performance Polymers cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product, may be used. It is the user's responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release.

**Revision information** This document has undergone significant changes and should be reviewed in its entirety.
