

# Frequently Asked Questions about Irathane Futura

## Irathane Futura:

- Which Primer do I need for my coating?
  - Please get in touch to discuss your specific application in more detail and we can recommend the most suitable primer for your substrate and chosen system.
- What equipment do I need to apply Protec II, Styrothane, or 155HS?
  - Detailed information on the application equipment requirements can be found in the relevant TDS and Method Statements. If there is still any uncertainty, please contact Technical Service.
- Can I pigment the 155HS?
  - What can be achieved is dependent on the required colour. You can pigment 155HS black or darker grey, but other colours are not possible. Pigment paste suitable for a PU can be used and may be added to the mixed P and C components up to 3%.

## General Questions

- Where can I find a Safety Data Sheet for one of your products?
  - <https://itwperformancepolymers.com/data-sheets/safety-data-sheets>
- Do you have more detailed product information available, such as mix ratio, operating temperatures, and application instructions?
  - These can be found in our Technical Data Sheets, which are available at <https://itwperformancepolymers.com/data-sheets/technical-data-sheets>
