## SAFETY DATA SHEET

Version #: 06 Issue date: 07-13-2019 Revision date: 08-03-2023 Supersedes date: 07-19-2023

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

	of the substance/mixture and of the company/undertaking
1.1. Product identifier	
Trade name or designation of the mixture	PLEXUS® MA2045 Adhesive
Registration number	-
Synonyms	None.
SKU#	0687
1.2. Relevant identified uses of t Identified uses	he substance or mixture and uses advised against Not available.
Uses advised against	None known.
1.3. Details of the supplier of the	e safety data sheet
Company Name	ITW Performance Polymers
Address	Bay 150
	Shannon Industrial Estate
	Co. Clare
	Ireland
	V14 DF82
Contact Person	Customer Service
Telephone Number	353(61)771500 353(61)471285
Email	customerservice.shannon@itwpp.com
Emergency Phone Number	44(0) 1235 239 670 (24 hours)
1.4. Emergency telephone numb

## **SECTION 2: Hazards identification**

## 2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

## Classification according to Regulation (EC) No 1272/2008 as amended

Physical hazards Flammable liquids	Category 2	H225 - Highly flammable liquid and vapor.
Health hazards		
Skin corrosion/irritation	Category 2	H315 - Causes skin irritation.
Serious eye damage/eye irritation	Category 2	H319 - Causes serious eye irritation.
Skin sensitization	Category 1	H317 - May cause an allergic skin reaction.
Specific target organ toxicity - single exposure	Category 3 respiratory tract irritation	H335 - May cause respiratory irritation.

## 2.2. Label elements

## Label according to Regulation (EC) No. 1272/2008 as amended UFI:

Austria: TRA0-4034-U00M-HEXR

Belgium: TRA0-4034-U00M-HEXR Bulgaria: TRA0-4034-U00M-HEXR Croatia: TRA0-4034-U00M-HEXR Cyprus: TRA0-4034-U00M-HEXR Czech Republic: TRA0-4034-U00M-HEXR Denmark: TRA0-4034-U00M-HEXR Estonia: TRA0-4034-U00M-HEXR EU: TRA0-4034-U00M-HEXR Finland: TRA0-4034-U00M-HEXR France: TRA0-4034-U00M-HEXR Germany: TRA0-4034-U00M-HEXR Greece: TRA0-4034-U00M-HEXR Hungary: TRA0-4034-U00M-HEXR Iceland: TRA0-4034-U00M-HEXR Ireland: TRA0-4034-U00M-HEXR Italy: TRA0-4034-U00M-HEXR Latvia: TRA0-4034-U00M-HEXR Lithuania: TRA0-4034-U00M-HEXR Luxembourg: TRA0-4034-U00M-HEXR Malta: TRA0-4034-U00M-HEXR Netherlands: TRA0-4034-U00M-HEXR Norway: TRA0-4034-U00M-HEXR Poland: TRA0-4034-U00M-HEXR Portugal: TRA0-4034-U00M-HEXR Romania: TRA0-4034-U00M-HEXR Slovakia: TRA0-4034-U00M-HEXR Slovenia: TRA0-4034-U00M-HEXR Spain: TRA0-4034-U00M-HEXR Sweden: TRA0-4034-U00M-HEXR Contains: 2-diethylaminoethyl methacrylate, dodecyl methacrylate, methacrylic acid; 2-methylpropenoic acid, methyl methacrylate; methyl 2-methylprop-2-enoate; methyl 2-methylpropenoate, Poly(2-chloro-1,3-butadiene), Styrene/butadiene Copolymer, TRIMETHYLOLPROPANE TRIMETHACRYLATE Hazard pictograms Signal word Danger Hazard statements Highly flammable liquid and vapor. H225 Causes skin irritation. H315 May cause an allergic skin reaction. H317 Causes serious eye irritation. H319 May cause respiratory irritation. H335 **Precautionary statements** Prevention Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P210 Keep container tightly closed. P233 Keep cool. P235 Ground and bond container and receiving equipment. P240 Use explosion-proof electrical/ventilating/lighting equipment. P241 Use non-sparking tools. P242 Take action to prevent static discharges. P243 Avoid breathing mist/vapors. P261 Wash thoroughly after handling. P264 Use only outdoors or in a well-ventilated area. P271 Contaminated work clothing should not be allowed out of the workplace. P272 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection. P280 Response IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with P303 + P361 + P353 water/shower. IF INHALED: Remove person to fresh air and keep comfortable for breathing. P304 + P340 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present P305 + P351 + P338 and easy to do. Continue rinsing.

P337 + P313 P362 + P364	If eve irritation pe	rsists: Get medical ad	lvice/attention.		
P302 + P304 P370 + P378	Take off contamir	nated clothing and wa	sh it before reuse.		
Storage			5		
P403 + P233	Store in a well-ve	ntilated place. Keep o	container tightly closed.		
P403 + P235	Store in a well-ve	ntilated place. Keep o			
P405	Store locked up.				
Disposal					
P501	Dispose of conter	nts/container in accor	dance with local/regional/na	tional/internationa	al regulations.
upplemental label information	None.				
.3. Other hazards	(EC) No 1907/200 established in acc	06, Annex XIII. The m	ces assessed to be vPvB / F nixture does not contain any H Article 59(1) for having end 0.1% by weight.	substances inclue	ded in the list
SECTION 3: Composition/i	information or	n ingredients

### List of abbreviations and symbols that may be used above

ATE: Acute toxicity estimate.

M: M-factor

vPvB: very persistent and very bioaccumulative substance.

PBT: persistent, bioaccumulative and toxic substance.

#: This substance has been assigned Union workplace exposure limit(s).

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

## **Composition comments**

The full text for all H-statements is displayed in section 16.

SECTION 4: First aid measures		
General information	Take off all contaminated clothing immediately. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.	
4.1. Description of first aid mea	sures	
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a poison center or doctor/physician if you feel unwell.	
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.	
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.	
Ingestion	Rinse mouth. Get medical attention if symptoms occur.	
4.2. Most important symptoms and effects, both acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.	
4.3. Indication of any immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.	

## **SECTION 5: Firefighting measures**

V V	
General fire hazards	Highly flammable liquid and vapor.
5.1. Extinguishing media	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from the substance or mixture	Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flash back. During fire, gases hazardous to health may be formed.
5.3. Advice for firefighters	
Special protective equipment for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Special fire fighting procedures	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.

## **SECTION 6: Accidental release measures**

5.1. Personal precautions, protective equipment and emergency procedures		
For non-emergency personnel	Avoid breathing mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Do not touch or walk through spilled material.	
For emergency responders	Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during clean-up. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Ventilate closed spaces before entering them. Avoid breathing mist/vapors. Local authorities should be advised if significant spillages cannot be contained. Use personal protection recommended in Section 8 of the SDS.	
6.2. Environmental precautions	Avoid discharge into drains, water courses or onto the ground.	

6.3. Methods and material for containment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools.
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.
	Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.
SECTION 7: Handling and	I storage
SECTION 7: Handling and 7.1. Precautions for safe handling	I storage Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
7.1. Precautions for safe	Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Avoid breathing mist/vapors. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene

ANNEX 1, PART 1 Categories of dangerous substances Hazard categories in accordance with Regulation (EC) No 1272/2008 - P5a, b or c FLAMMABLE LIQUIDS (Lower-tier requirements = 50 tons; Upper-tier requirements = 200 tons) Observe industrial sector guidance on best practices.

## **SECTION 8: Exposure controls/personal protection**

## 8.1. Control parameters

7.3. Specific end use(s)

•	thyl 2-methylprop-2-enoate;	Can be absorbed through the skin.	

## Slovenia. OELs. Regulations concerning protection of workers against risks due to exposure to chemicals while working (Official Gazette of the Republic of Slovenia)

methacrylic acid; 2-methylpropenoic acid (CAS 79-41-4) Can be absorbed through the skin.

8.2. Exposure controls	
Appropriate engineering controls	Explosion-proof general and local exhaust ventilation. Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.
Individual protection measures,	such as personal protective equipment
General information	Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Eye/face protection	Chemical respirator with organic vapor cartridge and full facepiece.
Skin protection	
- Hand protection	Wear appropriate chemical resistant gloves.
- Other	Wear appropriate chemical resistant clothing.
Respiratory protection	Chemical respirator with organic vapor cartridge and full facepiece.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
Hygiene measures	When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. Fume scrubbers, filters or engineering modifications to the process equipment may be necessary to reduce emissions to acceptable levels.

## **SECTION 9: Physical and chemical properties**

## 9.1. Information on basic physical and chemical properties

Physical state	Liquid.
Form	Liquid. Paste.
Color	Tan.
Odor	Not available.
Melting point/freezing point	-54,4 °F (-48 °C) estimated
Boiling point or initial boiling point and boiling range	212,9 °F (100,5 °C) estimated
Flammability	Not applicable.
Upper/lower flammability or exp	losive limits
Explosive limit - lower (%)	2,1 % estimated
Explosive limit - upper (%)	8,2 % estimated
Flash point	50,0 °F (10,0 °C) estimated
Auto-ignition temperature	564,8 °F (296 °C) estimated
Decomposition temperature	Not available.
рН	> 5 - < 6
Kinematic viscosity	Not available.
Solubility	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water) (log value)	Not available.
Vapor pressure	45,51 hPa estimated
Density and/or relative density	
Density	0,95 g/cm3 estimated
Vapor density	Not available.
Particle characteristics	Not available.
9.2. Other information	
9.2.1. Information with regard to physical hazard classes	No relevant additional information available.

## 9.2.2. Other safety characteristics

Specific gravity	0,95 estimated

SECTION 10: Stability and reactivity		
10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.	
10.2. Chemical stability	Material is stable under normal conditions.	
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.	
10.4. Conditions to avoid	Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.	
10.5. Incompatible materials	Strong oxidizing agents. Nitrates. Peroxides.	
10.6. Hazardous decomposition products	No hazardous decomposition products are known.	

## **SECTION 11: Toxicological information**

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely route	s of exposure
Inhalation	May cause irritation to the respiratory system. Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation. May cause an allergic skin reaction.
Eye contact	Causes serious eye irritation.
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.
Symptoms	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.

## 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity	Not known.		
Components	Species	Test Results	
2-diethylaminoethyl methacryla	te (CAS 105-16-8)		
Acute			
Oral			
LD50	Rat	4696 mg/kg	
dodecyl methacrylate (CAS 142	2-90-5)		
Acute			
Dermal			
LD50	Rabbit	> 3 g/kg	
Oral			
LD50	Rat	> 5 g/kg	
methacrylic acid; 2-methylprope	enoic acid (CAS 79-41-4)		
<u>Acute</u>			
Inhalation			
LC50	Rat	7,100000000000005 mg/l, 4 Hours	
	methylprop-2-enoate; methyl 2-methylp	propenoate (CAS 80-62-6)	
Acute			
Oral		7000 "	
LD50	Rat	7800 mg/kg	
Skin corrosion/irritation	Causes skin irritation.	Causes skin irritation.	
Serious eye damage/eye irritation	Causes serious eye irritation.		
Respiratory sensitization	Due to partial or complete lack of	data the classification is not possible.	
Skin sensitization	May cause an allergic skin reactio	on.	
Germ cell mutagenicity	Due to partial or complete lack of data the classification is not possible.		
Carcinogenicity	Due to partial or complete lack of data the classification is not possible.		
IARC Monographs. Overa	all Evaluation of Carcinogenicity		
	nethyl 2-methylprop-2-enoate; 3	Not classifiable as to carcinogenicity to humans.	

Poly(2-chloro-1,3-butadie	ene) (CAS 9010-98-4) 3 Not classifiable as to carcinogenicity to humans.	
Styrene/butadiene Copol		
Reproductive toxicity	Due to partial or complete lack of data the classification is not possible.	
Specific target organ toxicity - single exposure	May cause respiratory irritation.	
Specific target organ toxicity - repeated exposure	Not applicable.	
Aspiration hazard	Due to partial or complete lack of data the classification is not possible.	
Mixture versus substance information	No information available.	
11.2. Information on other hazar	ds	
Endocrine disrupting properties	This mixture does not contain any substances having endocrine disrupting properties with respect to human health as assessed in accordance with the criteria set out in Regulations (EC) No 1907/2006, (EU) No 2017/2100 and (EU) 2018/605, at a concentration equal to or greater than 0.1% by weight.	
Other information	Not available.	
SECTION 12: Ecological i	nformation	
12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.	
12.2. Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.	
12.3. Bioaccumulative potential		
2-methylpropenoate	6,45 penoic acid 0,93 2-methylprop-2-enoate; methyl 1,38 noalkyaryl esters of methacrylic 8,64	
Bioconcentration factor (BCF)	Not available.	
12.4. Mobility in soil	No data available.	
12.5. Results of PBT and vPvB assessment	This mixture does not contain substances assessed to be vPvB / PBT according to Regulation (EC) No 1907/2006, Annex XIII.	
12.6. Endocrine disrupting properties	This mixture does not contain any substances having endocrine disrupting properties with respect to the environment as assessed in accordance with the criteria set out in Regulations (EC) No 1907/2006, (EU) No 2017/2100 and (EU) 2018/605, at a concentration equal to or greater than 0.1% by weight.	
12.7. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.	
SECTION 13: Disposal co	nsiderations	
13.1. Waste treatment methods		
Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some	

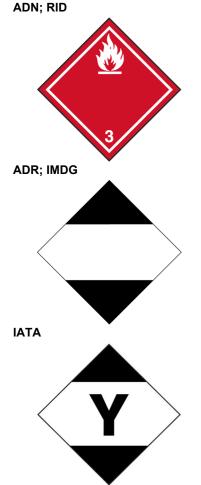

Residual waste	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
EU waste code	The Waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Disposal methods/information	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Special precautions	Dispose in accordance with all applicable regulations.
SECTION 14: Transport information
