SAFETY DATA SHEET

1. Identification			
Product identifier	Chockfast Neutral Versaflow Aggregate		
Other means of identification			
SKU#	GP142A		
Recommended use	Not available.		
Recommended restrictions	None known.		
Manufacturer/Importer/Supplier/	/Distributor information		
Company name	ITW Performance Polymers		
Address	35 Brownridge Road		
	Unit 1		
	Halton Hills, ON L7G 0C6		
Contact person	Customer Service		
Telephone number	215-855-8450		
Fax number	215-855-4688		
Emergency Number	800-424-9300 (CHEMTREC)		
Supplier	Not available.		
2. Hazard identification			
Physical hazards	Not classified.		
Health hazards	Carcinogenicity Category 1A		
	Specific target organ toxicity following Category 1 repeated exposure		
Environmental hazards	Not classified.		
Label elements	•		
Signal word	Danger		
Hazard statement	May cause cancer. Causes damage to organs through prolonged or repeated exposure.		
Precautionary statement			
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist/vapours. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.		
Response	IF exposed or concerned: Get medical advice/attention.		
Storage	Store locked up.		
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.		
Supplemental information	99 % of the mixture consists of component(s) of unknown acute inhalation toxicity. 99 % of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 99 % of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.		
Other hazards	None known.		
3. Composition/information	on on ingredients		

Mixtures

Chemical name	Common name and synonyms	CAS number	%
Crystalline SiO2 (Quartz)		14808-60-7	60 - 100
Other components below report			< 1
All concentrations are in percent by	y weight unless ingredient is a gas. Gas concer	trations are in percent by volu	me.
4. First-aid measures			
Inhalation	Move to fresh air. Call a physician if symptom	s develop or persist.	
Skin contact	Wash off with soap and water. Get medical at	tention if irritation develops an	d persists.
Eye contact	Rinse with water. Get medical attention if irrita	ation develops and persists.	
ngestion	Rinse mouth. Get medical attention if sympton	ms occur.	
Most important symptoms/effects, acute and delayed	Coughing. Prolonged exposure may cause ch	ironic effects.	
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treasymptoms may be delayed.	at symptomatically. Keep victir	n under observation.
General information	IF exposed or concerned: Get medical advice (show the label where possible). Ensure that involved, and take precautions to protect then	medical personnel are aware o	
5. Fire-fighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carb	on dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as th	is will spread the fire.	
Specific hazards arising from the chemical	During fire, gases hazardous to health may be	e formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full p	otective clothing must be worr	n in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do s	so without risk.	
Specific methods	Use standard firefighting procedures and con-	sider the hazards of other invo	lved materials.
General fire hazards	No unusual fire or explosion hazards noted.		
6. Accidental release mea	sures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep per appropriate protective equipment and clothing Ensure adequate ventilation. Local authorities contained. For personal protection, see section	during clean-up. Do not breat should be advised if significat	the mist/vapours.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is possible. Absorb in vermiculite, dry sand or ear recovery, flush area with water.		
	Small Spills: Wipe up with absorbent material remove residual contamination.	(e.g. cloth, fleece). Clean surf	ace thoroughly to
	Never return spills to original containers for re containers. For waste disposal, see section 13		covered, labeled
Environmental precautions	Avoid discharge into drains, water courses or	onto the ground.	
7. Handling and storage			
Precautions for safe handling	Obtain special instructions before use. Do not and understood. Do not breathe mist/vapours drink or smoke. Should be handled in closed Wear appropriate personal protective equipm good industrial hygiene practices.	. Avoid prolonged exposure. W systems, if possible. Provide a	/hen using, do not ea dequate ventilation.

eneral hygiene onsiderations	Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.				
9. Physical and chemica	I properties				
Appearance	Sand Like				
Physical state	Liquid.				
Form	Liquid. Granu	lar.			
	1				

Colour	Natural color
Odour	None.
Odour threshold	Not available.
рН	Not available.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or expl	osive limits
Explosive limit - lower (%)	Not available.
Explosive limit – upper (%)	Not available.
Vapour pressure	-0.01 hPa estimated
Vapour density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidising properties	Not oxidising.
10 Stability and reactivity	

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Powerful oxidizers. Chlorine.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of e	xposure			
Inhalation	Prolonged inhalation may be harmful.			
Skin contact	No adverse effects due to skin contact are expected.			
Eye contact	Direct contact with eyes may cause temporary irritation.			
Ingestion	Expected to be a low ingestion hazard.			
Symptoms related to the physical, chemical and toxicological characteristics	Coughing.			
Information on toxicological effects				
Acute toxicity	Not known.			
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.			
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.			

muttagenic or genotoxic. Carcinogenicity May cause cancer. ACGH Carcinogens Crystalline SiO2 (Quartz) (CAS 14808-60-7) A2 Suspected human carcinogen. Dispose of contents/container in accordance with local/regional/national/international regulations. Dispose in accordance with all applicable regulations. The waste code should be assigned in discussion between the user, the producer and the waste disposal company.Waste from residues / unused product sDispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).Contaminated packagingSince emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.	12. Ecological information	n		
Bioaccumulative potential No data available. Mobility in soil No data available. Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. 13. Disposal considerations Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations. Local disposal regulations Dispose in accordance with all applicable regulations. Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste disposal company. Waste from residues / unused product residues. / unused product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.	Ecotoxicity	possibility that large or frequent spills can have a harmful or damaging effect on the environment.
