# SAFETY DATA SHEET

# 1. Identification

Product identifier	DEVCON® Fast Cure Gray Liquid Curing Agent			
Other means of identification				
SKU#	0321			
Recommended use	Not available.	Not available.		
Recommended restrictions	None known.			
Manufacturer/Importer/Supplier	r/Distributor information			
Manufacturer				
Company name	ITW Performance Polymers			
Address	30 Endicott Street			
	Danvers, MA 01923			
Telephone	United States Customer Service 978-777-1100			
Website	www.itwperformancepolymers.com			
E-mail	Not available.			
Contact person	EHS Department			
Emergency phone number	Chemtrec 800-424-9300			
	International 703-527-3887			
2. Hazard(s) identification	ı			
Physical hazards	Not classified.			
- Health hazards	Acute toxicity, inhalation	Category 2		
	Skin corrosion/irritation	Category 2		
	Serious eye damage/eye irritation	Category 2		
	Sensitization, respiratory	Category 1		
	Sensitization, skin	Category 1		
Environmental hazards	Specific target organ toxicity, single exposure Category 3 respiratory tract irritation			
	Not classified.			
OSHA defined hazards	Not classified.			
Label elements				
Signal word	Danger			
Hazard statement	Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation. Fatal if inhaled. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause respiratory irritation.			
Precautionary statement				
Prevention	Do not breathe vapor. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection/face protection. Wear protective gloves. Wear respiratory protection.			
Response	If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. Specific treatment is urgent (see this label). If skin irritation or rash occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.			
Storage	Store in a well-ventilated place. Keep container tightly closed. Store locked up.			
Disposal	Dispose of contents/container in accordanc	e with local/regional/national/international regulations		
-				

Supplemental information

3. Composition/information on ingredients

None.

#### Mixtures

Chemical name	Common name and synonyms	CAS number	%
Polyol		N/A	60 - 80
4,4'-Methylenedicyclohexyl diisocyanate		5124-30-1	20 - 40
Other components below report	able levels		1 - 2.5

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures		
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Call a physician or poison control center immediately.	
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. In case of eczema or other skin disorders: Seek medical attention and take along these instructions. Wash contaminated clothing before reuse.	
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.	
Ingestion	Rinse mouth. Get medical attention if symptoms occur.	
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation. Coughing. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.	
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.	
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.	

#### 5. Fire-fighting measures

•••••••••••••••••••••••••••••••••••••••	
Suitable extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).	
Unsuitable extinguishing media	Water. Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe vapors or spray mist. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways.		
		material, if this is without risk. Dike the spilled material, where this is e, dry sand or earth and place into containers. Following product er.	
	Small Spills: Wipe up with ab remove residual contaminatio	sorbent material (e.g. cloth, fleece). Clean surface thoroughly to n.	
	Never return spills to original	containers for re-use. For waste disposal, see section 13 of the SDS.	
Environmental precautions	Avoid discharge into drains, v	vater courses or onto the ground.	
7. Handling and storage			
Precautions for safe handling			
Conditions for safe storage, including any incompatibilities	Store locked up. Store in tight incompatible materials (see S	tly closed container. Store in a well-ventilated place. Store away from Section 10 of the SDS).	
8. Exposure controls/pers	onal protection		
Occupational exposure limits			
The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.			
US. ACGIH Threshold Limit			
Components	Туре	Value	
4,4'-Methylenedicyclohexyl diisocyanate (CAS 5124-30-1)	TWA	0.005 ppm	
US. NIOSH: Pocket Guide to	Chemical Hazards		
Components	Туре	Value	
4,4'-Methylenedicyclohexyl diisocyanate (CAS 5124-30-1)	Ceiling	0.11 mg/m3	
		0.01 ppm	
Biological limit values	No biological exposure limits	noted for the ingredient(s).	
Exposure guidelines			
US - Tennessee OELs: Skin designation			
4,4'-Methylenedicyclohex (CAS 5124-30-1)	yl diisocyanate	Can be absorbed through the skin.	
Appropriate engineering controls	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. General ventilation normally		

Thermal hazardsWear appropriate thermal protective clothing, when necessary.General hygiene<br/>considerationsAlways observe good personal hygiene measures, such as washing after handling the material<br/>and before eating, drinking, and/or smoking. Routinely wash work clothing and protective<br/>equipment to remove contaminants. Contaminated work clothing should not be allowed out of the<br/>workplace.

adequate. Provide eyewash station and safety shower.

Wear appropriate chemical resistant gloves.

Chemical respirator with organic vapor cartridge and full facepiece.

Chemical respirator with organic vapor cartridge and full facepiece.

Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.

Eye/face protection Skin protection

Individual protection measures, such as personal protective equipment

## 9. Physical and chemical properties

9. Physical and chemical properties		
Appearance	Liquid.	
Physical state	Liquid.	
Form	Liquid.	
Color	Clear.	
Odor	Musty.	
Odor threshold	Not available.	
рН	Not available.	
Melting point/freezing point	77 °F (25 °C) estimated	
Initial boiling point and boiling range	Not available.	
Flash point	392.0 °F (200.0 °C) estimated	
Evaporation rate	Not available.	
Flammability (solid, gas)	Not applicable.	
Upper/lower flammability or expl	losive limits	
Flammability limit - lower (%)	Not available.	
Flammability limit - upper (%)	Not available.	
Explosive limit - lower (%)	Not available.	
Explosive limit - upper (%)	Not available.	
Vapor pressure	0.00002 hPa estimated	
Vapor density	Not available.	
Relative density	Not available.	
Solubility(ies)		
Solubility (water)	Not available.	
Partition coefficient (n-octanol/water)	Not available.	
Auto-ignition temperature	Not available.	
Decomposition temperature	Not available.	
Viscosity	Not available.	
Other information		
Density	1.03 g/cm3 estimated	
Explosive properties	Not explosive.	
Flammability class	Combustible IIIB estimated	
Oxidizing properties	Not oxidizing.	
Specific gravity	1.03 estimated	
10. Stability and reactivity		

# ReactivityThe product is stable and non-reactive under normal conditions of use, storage and transport.Chemical stabilityMaterial is stable under normal conditions.Possibility of hazardous<br/>reactionsHazardous polymerization does not occur.Conditions to avoidKeep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with<br/>incompatible materials.Incompatible materialsAlcohols. Amines.Hazardous decomposition<br/>productsNo hazardous decomposition products are known.

## 11. Toxicological information

Inhalation

## Information on likely routes of exposure

Fatal if inhaled. May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Skin contact	Causes skin irritation. May eause a	alloraio skin reaction	
	Causes skin irritation. May cause an allergic skin reaction.		
Eye contact	Causes serious eye irritation.		
Ingestion Symptoms related to the physical, chemical and toxicological characteristics	Expected to be a low ingestion hazard. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation. Coughing. Difficulty in breathing. Skin irritation. May cause redness and pain. May cause an allergic skin reaction. Dermatitis. Rash.		
Information on toxicological eff	ects		
Acute toxicity	Fatal if inhaled.		
Components	Species	Test Results	
4,4'-Methylenedicyclohexyl diisoc Acute	-		
Dermal			
LD50	Rabbit	> 10000 mg/kg	
Oral	_		
LD50	Rat	1065 mg/kg	
Skin corrosion/irritation	Causes skin irritation.		
Serious eye damage/eye irritation	Causes serious eye irritation.		
Respiratory or skin sensitizatio			
Respiratory sensitization		oms or breathing difficulties if inhaled.	
Skin sensitization	May cause an allergic skin reaction.		
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity IARC Monographs. Overall			
Not listed. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053) Not listed. US. National Toxicology Program (NTP) Report on Carcinogens Not listed.			
Reproductive toxicity	This product is not expected to cause	se reproductive or developmental effects.	
Specific target organ toxicity - single exposure	May cause respiratory irritation.		
Specific target organ toxicity - repeated exposure	Not classified.		
Aspiration hazard	Not an aspiration hazard.		
Chronic effects	Prolonged inhalation may be harmfu	ıl.	
12. Ecological informatio	n		
Ecotoxicity		The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.	
Persistence and degradability	No data is available on the degradability of any ingredients in the mixture.		
Bioaccumulative potential			
	tition coefficient n-octanol / water (log Kow) Methylenedicyclohexyl diisocyanate 6.11		
Mobility in soil	No data available.		
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.		
13. Disposal consideration	ons		
Disposal instructions	· · · ·		
Local disposal regulations			

Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste disposal company.			
Waste from residues / unused productsDispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).			
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.		
14. Transport information			
DOT			
Not regulated as dangerous goods.			
ΙΑΤΑ			
Not regulated as dangerous goods.			

IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not established.

#### Annex II of MARPOL 73/78 and

the IBC Code

**General information** 

IMDG Regulated Marine Pollutant. DOT Regulated Marine Pollutant.

#### 15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

#### US EPCRA (SARA Title III) Section 313 - Toxic Chemical: De minimis concentration

4,4'-Methylenedicyclohexyl diisocyanate	% 1.0
(CAS 5124-30-1)	
US EPCRA (SARA Title III) Section 313 - Toxi	c Chemical: Listed substance

4,4'-Methylenedicyclohexyl diisocyanate Listed. (CAS 5124-30-1)

#### **Toxic Substances Control Act (TSCA)**

#### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

#### CERCLA Hazardous Substance List (40 CFR 302.4)

	International	703-527-3887	
2. Hazard(s) identification	n		
Physical hazards	Not classified.		
Health hazards	Acute toxicity, oral		Category 4
	Acute toxicity, dermal		Category 4
	Serious eye damage/eye irr	itation	Category 2A
	Specific target organ toxicity exposure	/, repeated	Category 2
Environmental hazards	Not classified.		
OSHA defined hazards	Not classified.		
Label elements			
Signal word	Warning		
Hazard statement	Harmful if swallowed. Harmi damage to organs through p		skin. Causes serious eye irritation. May cause ated exposure.
Precautionary statement			
Prevention	Do not breathe mist/vapors. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear eye protection/face protection. Wear protective gloves/protective clothing.		
Response	If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth. If on skin: Wash with plenty of water. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention.		
Storage	Store away from incompatible materials.		
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.		
Hazard(s) not otherwise classified (HNOC)	None known.		

None.

Supplemental information

# 3. Composition/information on ingredients

Mixtures			
Chemical name	Common name and synonyms	CAS number	%
Diethyltoluenediamine		68479-98-1	60 - 80
Oleic Acid		112-80-1	2.5 - 10
Carbon Black		1333-86-4	1 - 2.5
Other components below reportable levels			20 - 40

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures	
Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical advice/attention if you feel unwell. Get medical attention if irritation develops and persists. Wash contaminated clothing before reuse.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical advice/attention if you feel unwell.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Prolonged exposure may cause chronic effects.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

## 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground.

#### 7. Handling and storage

#### Precautions for safe handling

Do not breathe mist/vapors. Do not taste or swallow. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using, do not eat, drink or smoke. Provide adequate ventilation. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Wash contaminated clothing before reuse. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities

Store in tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

#### 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.
