# SAFETY DATA SHEET

1.	dentification

ay cause bugh
e smoking. Se action to g. Do not rea. Wear

Response	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF exposed or concerned: Call a POISON CENTRE/doctor. If eye irritation persists: Get medical advice/attention. In case of fire: Use appropriate media to extinguish.
Storage	Keep cool. Store in a well-ventilated place. Keep container tightly closed. Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Other hazards	None known.
Supplemental information	None.

## 3. Composition/information on ingredients

**Mixtures** 

Chemical name	Common name and synonyms	CAS number	%
ETHYL ACETATE		141-78-6	60 - 100
Other components below reportable levels			1 - 5

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures	
Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or artificial respiration if needed. Call a poison centre or doctor/physician if you feel unwell.
Skin contact	Take off immediately all contaminated clothing. Rinse skin with water/shower. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Prolonged exposure may cause chronic effects.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim warm. Keep victim under observation. Symptoms may be delayed.
General information	Take off all contaminated clothing immediately. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.
5. Fire-fighting measures	
Suitable extinguishing media	Water fog. Alcohol resistant foam. Carbon dioxide (CO2). Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only.
Unsuitable extinguishing	Do not use water jet as an extinguisher, as this will spread the fire.

media	
Specific hazards arising from the chemical	Vapours may form explosive mixtures with air. Vapours may travel considerable distance to a source of ignition and flash back. This product is a poor conductor of electricity and can become electrostatically charged. If sufficient charge is accumulated, ignition of flammable mixtures can occur. To reduce potential for static discharge, use proper bonding and grounding procedures. This liquid may accumulate static electricity when filling properly grounded containers. Static electricity accumulation may be significantly increased by the presence of small quantities of water or other contaminants. Material will float and may ignite on surface of water. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	Highly flammable liquid and vapour.

### 6. Accidental release measures

sures	
ignition sources (no smoking, flar protective equipment and clothing damaged containers or spilled ma closed spaces before entering the contamination. Transfer by mecha suitable container for recovery or	y. Keep people away from and upwind of spill/leak. Eliminate all es, sparks, or flames in immediate area). Wear appropriate during clean-up. Do not breathe mist/vapours. Do not touch terial unless wearing appropriate protective clothing. Ventilate em. Use appropriate containment to avoid environmental anical means such as vacuum truck to a salvage tank or other safe disposal. Local authorities should be advised if significant r personal protection, see section 8 of the SDS.
combustibles (wood, paper, oil et	smoking, flares, sparks, or flames in immediate area). Keep c) away from spilled material. Take precautionary measures non-sparking tools.
possible. Use a non-combustible	erial, if this is without risk. Dike the spilled material, where this is material like vermiculite, sand or earth to soak up the product r disposal. Following product recovery, flush area with water.
	and or other non-combustible material and transfer to containers peorbent material (e.g. cloth, fleece). Clean surface thoroughly to
Avoid discharge into drains, wate	ainers for re-use. For waste disposal, see section 13 of the SDS. courses or onto the ground. Use appropriate containment to n.
material from direct sunlight. Expl risks from flammable and combus accumulating liquids) or dangerou can promote accumulation of stat pumping at high flow rates, splas cleaning, sampling, gauging, swit measures against static discharg grounded. Use non-sparking tools Avoid contact with eyes. Avoid pr only outdoors or in a well-ventilate	an open flame, sources of heat or sources of ignition. Protect osion-proof general and local exhaust ventilation. Minimize fire tible materials (including combustible dust and static is reactions with incompatible materials. Handling operations that c charges include but are not limited to: mixing, filtering, n filling, creating mists or sprays, tank and container filling, tank ch loading, vacuum truck operations. Take precautionary es. All equipment used when handling the product must be and explosion-proof equipment. Do not breathe mist/vapours. Jolonged exposure. When using, do not eat, drink or smoke. Use ed area. Wear appropriate personal protective equipment. Wash Dbserve good industrial hygiene practices.
Code in Canada, (CSA C22.1), or 2003, "Protection Against Ignition Fire Protection Association (NFP)	pment bonding and grounding, refer to the Canadian Electrical the American Petroleum Institute (API) Recommended Practice s Arising out of Static, Lightning, and Stray Currents" or National A) 77, "Recommended Practice on Static Electricity" or National A) 70, "National Electrical Code".
build-up by using common bondir spark promoters. Ground/bond co remove static electricity. Store in container. Store in a well-ventilate	heat, sparks and open flame. Prevent electrostatic charge g and grounding techniques. Eliminate sources of ignition. Avoid ntainer and equipment. These alone may be insufficient to a cool, dry place out of direct sunlight. Store in tightly closed d place. Keep in an area equipped with sprinklers. Store away Section 10 of the SDS).
onal protection	
Values Type	Value
	Keep unnecessary personnel awa ignition sources (no smoking, flare protective equipment and clothing damaged containers or spilled ma closed spaces before entering the contamination. Transfer by mecha suitable container for recovery or spillages cannot be contained. Fo Eliminate all ignition sources (no s combustibles (wood, paper, oil etc against static discharge. Use only Large Spills: Stop the flow of mate possible. Use a non-combustible of and place into a container for later Small Spills: Absorb with earth, sa for later disposal. Wipe up with ab remove residual contamination. Never return spills to original cont Avoid discharge into drains, water avoid environmental contaminatio Do not handle, store or open near material from direct sunlight. Explo- risks from flammable and combus accumulating liquids) or dangerou can promote accumulation of stati pumping at high flow rates, splasf cleaning, sampling, gauging, switc measures against static discharge grounded. Use non-sparking tools Avoid contact with eyes. Avoid pro only outdoors or in a well-ventilate hands thoroughly after handling. Other information	
Density	0.91 g/cm3
Explosive properties	Not explosive.
Flammability class	Flammable IB estimated
Oxidising properties	Not oxidising.
Specific gravity	0.91
10 Stability and reactivity	

#### 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerisation does not occur.
Conditions to avoid	Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidising agents. Nitrates.
Hazardous decomposition products	No hazardous decomposition products are known.

## 11. Toxicological information

#### Information on likely routes of exposure

Inhalation	Harmful if inhaled. May cause damage to organs by inhalation. May cause drowsiness and dizziness. Headache. Nausea, vomiting.
Skin contact	Knowledge about health hazard is incomplete.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
Information on toxicological eff	rects

Acute toxicity

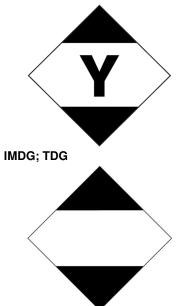

Harmful if inhaled.
